

BPB[®] OIL REMOVER SPRAY

Oil Stain Remover

Commercial use

Product No.: 329010036

Product Information:

Properties:

- biodegradable
- low vapour pressure
- safe application

Application:

for all cement-bonded building materials, clinker bricks, floor pavement as well as natural and interlocking paving blocks

A detergent which has especially been developed for removing all kinds of oil stains. Due to the high detaching power only very small quantities of active ingredients are needed to remove oil stains. The detergent is based on natural products, is aromatic-free and biodegradable. There is almost no air pollution through its use, as the vapor pressure of the detergent is very low. The high ignition point offers an optimum safety during application.

The spray is sprayed undiluted with a spray system directly to the object to be cleaned.

After a short time of reaction the spray can be removed with water (and/or with a cloth).

Shake can well before use.

Always carry out a preliminary test to determine the compatibility of the substrate to be treated and to determine consumption.

Quantities to use:

Depending on application up to optimum cleaning effect. The application can be repeated as often as required until perfect cleaning.

Specifications:

Appearance: Aerosol
Colour: whitish

Storage:

Under normal storage conditions (closed container, 20 °C) minimum shelf-life 12 months
Protect from frost, direct sunlight and contamination.

Packaging:

Spray Can at 500 ml
Other delivery quantities on request

Safety Rules:

See EC safety data sheet.

The product should only be used with suitable protective gloves (EN 374) and safety goggles (EN 166).

When cleaning, ensure good ventilation (5 to 15 air changes per hour) or use suction devices.

The can is under pressure. Do not expose to sunlight and temperatures > 50 °C. Do not open by force or combust after use. Do not spray against flames or flowing objects.

Avoid contact with eyes and skin. Do not empty into drains. Extremely flammable. Irritating to eyes. Repeated exposure may cause dry/cracked skin. Vapours may cause drowsiness and dizziness.

For proper disposal, spray the can completely empty! Contains > 30% aliphatic hydrocarbons. Complies with the European Detergents Regulation (EC) 648/2004.

Assistance:

Please contact our Technical Application Centre.

Industrial use:

Recommended frequency and duration of use:
small area

Commercial use:

Recommended frequency and duration of use:
small area

Environmental Exposure:

Do not allow undiluted product or large quantities of it to reach ground water, water bodies or the sewage system.
