

REBASol E

Special plasticizer for heating screed
Product No.: 240001000

Product Information:

Properties:

- high reduction of water
- brings in micropores
- increases the readiness to compact
- reduces shrinkage

Application:

heating and floating floor screed

With regard to the considerable saving of water REBASol E is added either with the mixing water in the ratio 1:200 to 1:300 to the concrete mix or mixed in last.

Dosage:

Recommended dosage: 0.1 - 0.2 mass % of the binding agent content

The quantity to use depends on the required effect, cement grade and type of concrete. Please call us for technical advice.

Specifications:

Appearance: liquid
Colour: brown
Density: 1.10 ± 0.03 g/ml

Storage:

Protect against frost and dirt. Under normal storage conditions (closed container, 20 °C) minimum shelf-life 12 months.

Packaging:

container 1000 kg, drum 200 kg, can 20 kg
further quantity delivered on request

Safety Rules:

See EC safety data sheet.
